

Pathways by San Diego High Small Schools

School of Business and Leadership

All students at San Diego High are required to select an English, Math, and Science course. As part of the Business and Leadership family you will also take Ethnic Studies and Business 100. These courses are foundational courses that will provide you with critical thinking and business skills. You will also have a choice between PE or JROTC.

CULINARY ARTS

Students enrolled in the Culinary Arts Pathway will learn the business of hospitality and restaurant work. The ProStart curriculum is supported by the National Restaurant Association, and is restaurant-specific. While food may be prepared in class, the bigger picture of what students should expect in these classes is learning about the world-wide hospitality industry, running a business in the industry, and how to thrive in the industry.

ACADEMY of ENTREPRENEURSHIP

Students in the Academy of Entrepreneurship take coursework to prepare them for the Marketing and Sales industry. Students participate in the entrepreneurship & self-employment pathway and take classes such as social entrepreneurship and marketing.

ACADEMY of FINANCE

Students in the Academy of Finance take business electives such as Business and Financial Markets and Advanced Accounting. During their senior year students are partnered with local San Diego businesses for job shadows and internships. The real-world experience student's gain from the program is invaluable for their future success.

School of International Studies

International Studies has some amazing programs available to you. These programs include: IB Diploma, IB Coursework, Digital Art & Mixed Media, and Broadcast Journalism. To learn more about these great programs please contact one of the following staff members:
